Subject: RE: External: Roulette Response to Comments and Status on Catalyst Comments

Hi Brian,

Sounds good.

I will ask Kevin to send you the draft comments as soon as they are getting close to going into concurrence.

The questions are quite complex and took a lot of time and research on Kevin's part to thoughtfully and accurately respond to their references and concerns.

Thanks.

To be honest, I don't think we ever had a response like this one. Yes, please put myself on the concurrence. But as you know the DD can sign this letter.

Thanks so much Brian. This confirms exactly what I thought.

Our comments are currently with ORC and they are fervently working on them.... So we are getting closer to putting them through concurrence.

Are you or Samantha typically on the concurrence chain for a response to comments?

Subject: RE: External: Roulette Response to Comments and Status on Catalyst Comments

Hi Brian,

That's great to hear that the responses are coming soon. Kevin Rowsey had sent an email and he thought possibly by the end of the month.

As for the Catalyst comments the Nation is waiting until the Roulette comments are received. I know there are a lot of similar concerns so we wanted to see the responses regarding our initial comments.

I know there is going to be initial consultation on the Sandstone permit too. I have forwarded dates to leadership I am just waiting on a response.

Thanks and please let me know if you have any other questions.

Hi Cliff,

I got word from the UIC group that they are almost finished with the Roulette comments, but doing some refining. I know those have been delayed and the Seneca Nation has been patient and I am appreciative of that.

Also, I believe we are still waiting for the Seneca Nation's submission of comments to the Catalyst permit. Do you know when those will be submitted? I understand if the Nation is waiting to get the Roulette response back before submitting the Catalyst comments. But if you know when those might be submitted, please let me know.

Thank you!

Brian Hamilton
